SUMMARY

Passionate and enthusiastic web developer with hands-on experience in React.js, Node.js, Express.js, SQL, AWS, Docker, RestfulAPI development and deployment. I enjoy building dynamic, user-friendly interfaces with clean design and responsive performance. Comfortable working across the full stack and continuously learning new technologies to improve both functionality and user experience.

Experience

↗ View Project Demo

iNeuron Intelligence Pvt Ltd (Remote Internship)
Sweet-Bite : A Modern Cake & Bakery Storefront UI

- Designed and developed a responsive bakery website using React.js
- Showcased cake products with appealing visuals and category-based filtering
- Ensured smooth, mobile-friendly experience with clean, modern UI design
- Handled layout, branding, and styling for a polished customer-facing site

Projects

↗ Live Project

Tomato : Online Food delivery App

- Developed a responsive food delivery UI using React.js, Bootstrap, CSS
- Implemented city-wise hotel and food filtering with detailed item pages
- Designed interactive cart, order flow, and real-time delivery status UI
- Focused on clean, high-end user experience with animations and polished design

Stockify : Stock Management App

↗ Live Project

- Built a role-based inventory system to manage items, categories, and requests
- Implemented authentication for Admin and Employee users with secure login and session handling
- Enabled CRUD operations for items and requests, category filtering, including quantity tracking
- Designed and deployed, ensuring intuitive dashboards features like dropdown filters and live item listing

Technical Skills

Languages & Frameworks : React.JS, Node.JS, Express.JS, RESTful API, Tailwind CSS, HTML, Next.JS
Databases & Tools : AWS, GIT, MySQL, PostgreSQL, Docker, CI/CD Pipeline, Github Actions, VPS Server
